# EV Charge Points

# User Guide

The NEC EV charge points are connected to the evolt Network powered by **swarco** and are supported and maintained by them on, our behalf.

The charge points require a type 2 connector and will deliver a minimum 3.5kwh.

There are two ways to use the chargers:

## Membership

15p connection fee  
36p per kwh charging fee  
**Free to join**

## Pay as you go

25p connection fee  
36p per kwh charging fee

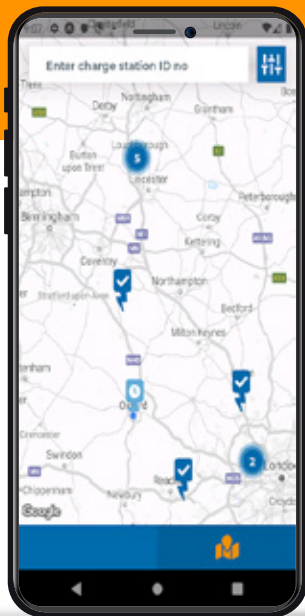

# Membership (cheaper and easier)

## Membership

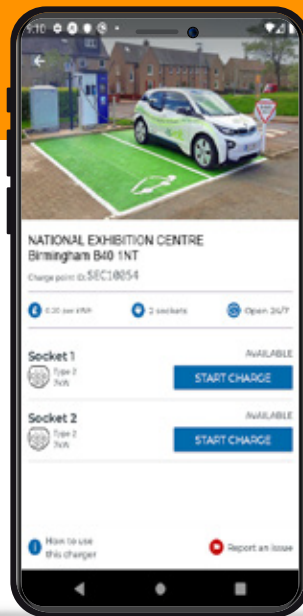

- Register online or via app
- Free to join for Drivers
- RFID Card available
- Driver sets-up Direct Debit Mandate
